

# Company Focus

**SRK Exploration Services Ltd.** (SRK ES) is unique within the SRK Group as it is the only discipline based practice, established in 2003 to meet the changing requirements of the junior and mid-tier exploration sector. It specialises in the exploration for all metal and industrial mineral commodities and takes projects from initial grassroots stage through to resource drilling prior to feasibility studies.

SRK ES provides a wide range of services that are relevant to minor to major tier mining companies, private investors and financial institutions worldwide. SRK ES is also able to draw upon extensive expertise in other mining disciplines from throughout the wider SRK Group.

## SRK ES' services include:

- Target Generation and property reviews on local, regional or continental scales;
- Exploration programme design tailored to specific commodities and locations;
- Geological field mapping and interpretation;
- Geophysical surveys and data processing;
- Remote sensing data processing and analysis;
- Structural field geology and interpretation;
- Geochemical sampling, QAQC procedures and laboratory co-ordination;
- Drill programme design, implementation and management;
- Training in technical field skills, QAQC development and mining industry best practices;
- Project supervision and organisation;
- Development of core yard facilities, equipment selection and recommendation for core logging protocols and sample storage;
- Near mine exploration and the definition of extensions to known mineralised ore bodies;
- Health and safety, logistical, security and medical support for exploration projects;
- Environmental, social, security and political support and advice;
- Auditing and valuation of exploration programmes and results and reporting to internationally recognised codes; and
- Global ministerial capacity building, cadastre development and government – client liaison.

Service statements expanding on SRK ES' experience, knowledge and expertise in specific services and commodities are available on request and on the company website.
