

Corporate Profile

SRK Exploration Services Limited (SRK ES) is part of the international SRK Group which comprises 22 independent consulting practices operating from 50 offices in 21 countries globally. The strength of the SRK Group lies within the collective experience of its 1600 professional staff and their expertise in a variety of disciplines including exploration, mining and engineering.

Since 1974 the SRK Group has established a track record of undertaking independent assessments of Mineral Resources and Ore Reserves, project valuations and audits, competent person's reports and feasibility studies on behalf of exploration and mining companies and financial institutions worldwide.

The SRK Group's independence is ensured by the fact that it holds no equity in any project. This enables SRK to provide multi-disciplinary, conflict-free and objective recommendations on crucial judgement issues. SRK ES offers exploration consulting and field services tailored to the needs of the individual project or client's requirements.

Key Milestones: Since its creation, SRK ES has grown to over 30 permanent staff and long term associates employed within the main Cardiff office and two satellite offices. These were set-up in Moscow and Copenhagen in 2010 and 2012 respectively.

As a specialist exploration group the company is composed of highly experienced explorers, skilled in various fields of geology, geophysics, mining analysis, data management, remote sensing and resource estimation.

The tenth anniversary of the company in 2013 marks the passing of a decade of providing respected and valued support to over 500 clients on projects in over 100 different countries.

Our Mission: SRK ES' aim is to be the partner of choice for mineral exploration companies by adding value to clients' projects, delivering high quality services and maintaining a leading position in the industry.

Our geologists endeavour to build an impartial and honest relationship with clients whilst providing independent geological guidance and dependable expertise.

Why SRK ES? Being part of the SRK Group we are wholly employee owned and ensure our independence by holding no equity in any project. This enables SRK to provide multi-disciplinary conflict-free and objective recommendations on crucial judgement issues.
